MEDIA RELEASE

19 April 2023

Fruit SA board movements

The Fruit SA board has appointed Mr Anton Kruger as chairperson (from vice-chairperson). Kruger succeeds Ms Vangile Titi-Msumza, who will remain on the board. The vice-chairperson role will be filled by board member Anton Rabe. These appointments are effective from 1 April 2023.

Fruit SA board appointments are made from a premise of pursuing industry strategic objectives – in this case, logistics, market access and transformation.

The three board members are pleased with their new roles and are raring to continue to help drive the industry agenda for sustained, widespread growth.

The Fruit SA board will continue to support its leadership team in pursuit of shared goals.

“The current leadership of Fruit SA comes with a formidable combination of strength, unity and agility. These are critical in navigating the changing dynamics in the global fruit trade,” says incoming chairperson Anton Kruger.

Fruit South Africa is a non-profit entity and umbrella body representing Berries ZA, Citrus Growers' Association of Southern Africa, Fresh Produce Exporters' Forum, Hortgro, the South African Subtropical Growers' Association and the South African Table Grape Industry.
