INTRODUCTION

Fruit South Africa (Fruit SA) is a non-profit company registered as an umbrella body for the South African fruit industry.

Fruit South Africa (Fruit SA) is a non-profit company and an umbrella body for these fresh fruit associations in SA: Berries ZA (representing blueberry, blackberry, and raspberry growers), the Citrus Growers' Association of Southern Africa (CGA), Fresh Produce Exporters' Forum (FPEF), HORTGRO (representing the pome- and stone-fruit industries), South African Table Grape Industry (SATI) and Subtrop (representing the avocado, litchi, and mango growers).

Fruit SA represents its members in providing advocacy, collaboration, coordination, and services on key industry related matters, i.e. transformation, market access, logistics and infrastructure, government and stakeholder relations, and information management and communication.

This booklet provides key statistics of the fruit industry for the 2022/2023 season and is published annually to fulfil part of our information management agenda. This booklet focuses on fruit types that Fruit SA member associations represent.

In 2022/2023 growth has been recorded in total area planted, production, exports, and imports from the previous season, and exports continued to be the largest market for SA fruit. This booklet gives a good picture of the South African fruit industry and is a go-to resource for understanding this industry better.

The booklet details the total area planted; on-farm employment, total production, distribution across various market segments, and historical price trends in the various market segments. South Africa's position in world fruit production and the Southern Hemisphere as well as per capita consumption in SA are also highlighted.

This booklet has been compiled with information presently available and in good faith but with the express condition that Fruit South Africa accepts no liability whatsoever for any loss or damage resulting from the use thereof.
